

JN Bentley

civil engineering and construction

JN Bentley is a leading, privately owned construction company in the UK, directly employing over 600 people. We have an annual turnover now in the region of £100 million, generated from projects in both the building and civil engineering markets.

Our head office is Skipton (North Yorkshire) and we also have offices in Shifnal (Shropshire), Durham, Leeds, Edinburgh and Cambridge.

Our work spans a wide number of sectors: aerospace, commercial, environment, health and education, highways, renewable energy, solid waste, and water and wastewater.

Our business has grown largely from repeat work and long standing clients of the company include water companies, public sector bodies, energy companies, blue-chip commercial clients and educational institutions.

Our Industrial Placement Scheme is in its 12th year, and has led to the sponsorship of several students who have returned to work for us as graduates.

For 2012, we are offering placements in our Skipton, Shifnal, Leeds and Durham offices across the following business areas: HR/Training; Plant Control; Buying; Quantity Surveying; Civil Engineering; and Mechanical & Electrical Engineering.

quantity surveying placement

JN Bentley is offering the opportunity to gain valuable experience and develop a number of key skills that will help you to pursue a future career as a QS.

You will join the Commercial Team and our wider project delivery team and be able to work under pressure whilst maintaining your sense of humour. You must be confident and motivated and be able to handle multiple tasks, and need to have a strong work ethic and deliver a high level of service. The ability to work in a team and independently is essential too. As the successful candidate you will be given the opportunity to take responsibility

for most aspects of the role of a QS within construction projects from conception through the design and construction phases to completion.

responsibilities

- Preparing monthly applications for payment and internal cost reports.
- Identifying and recording change.
- Monitoring current costs and forecasting future costs.
- Procuring and managing subcontract works.
- Preparation and checking of cost estimates.
- Taking off quantities from drawings and preparing bills.
- Maintaining communication with all parties in order to meet deadlines.

the role

Quantity Surveyor
